Танграм — игра, рассчитанная на логику. На странице 5 имеется схема геометрических фигур, с помощью которой можно их изготовить и затем использовать для создания иной фигуры по узору из раздела «Задания». Ориентируясь на узор, используя логику, подбираете оптимальное решение. Самое удивительное заключается в том, что для создания большого числа фигур потребуется лишь один их набор, ни фигурой больше, ни меньше. Узоры имеют и свои степени сложности, так что научившись играть на простых примерах, можно испытать себя и на более сложных заданиях. В конце книги помещены решения.
